Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Foward Level

Agency: 405 - Department of Transportation

Transportation Management & Support

This includes policies, procedures, and administrative systems. The Transportation Management and Support program consolidates agency-wide executive management and support service functions. The executive management and the policy functions of the agency include the executive administration, audit, equal opportunity, communications, government liaison, and the Ombudsman's Office. Also, included in this activity are resource planning (budget and financial planning), accounting, risk management, and human resources management. In addition, several agency-wide services such as mail services, publications, library services, and some maintenance and utilities of the headquarters building are funded through this activity.

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Category: Maintain mobility systems

	FY 2006	j	FY 2007				
Total	GFS	Other	FTEs	Total	GFS	Other	FTEs

Agency Council on Coordinated Transportation Program

The activity provides staff support for the Agency Council on Coordinated Transportation (ACCT), which is responsible for providing overall state guidance, standards, and reporting requirements for the coordination of special-needs transportation. ACCT also provides technical assistance to local agencies for planning, demonstrations, and project implementation. The federal Job Access and Reverse Commute program is monitored through this program. Legislative authorities or requirements: RCW 47.06B.

Aviation Management and Support

Aviation Management and Support provides oversight for all state governmental aviation activities, enforcement of aviation laws in coordination with the Federal Aviation Administration (FAA), and coordination of aviation efforts under the Growth Management Act. Other responsibilities include supplying information on air transportation issues to governmental agencies and the general public. Registration of general aviation aircraft and resident pilots, the licensing of aircraft dealers in Washington, and inspections of local public use airports are included in the activities of this sub-program.

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Agency: 405 - Department of Transportation

Aviation Planning, Advocacy, and Encroachment

Aviation technical assistance staff design and monitor the state continuous airport system planning effort to ensure an integrated aviation system for the state. The staff also integrates the state system with the Federal Aviation Administration (FAA) national airport system. An integrated system includes a coordinated hospital heliport system, a coordinated intermodal transportation system, and locating airports for ease of developing their aviation comprehensive plans.

Daily Operation of Terminals and Vessels

Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Foward Level

Agency: 405 - Department of Transportation

This activity directly supports the legislatively-approved service schedule and service hours. The activity includes labor, fuel, and materials for deck and engine operations of the fleet. Daily operations also include revenue collection costs, traffic control costs, operations training, and vessel and terminal operations management and support.

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Category: Operate mobility systems

Highway Construction - SR 16 Tacoma Narrows Bridge Project

The Tacoma Narrow Bridge Project, a project to alleviate congestion on the State Route 16 corridor, includes the construction of a new suspension bridge with two general-purpose lanes and a high occupancy vehicle (HOV) lane for eastbound traffic. The existing bridge will be reconfigured with two lanes and an HOV lane for westbound traffic. The project also includes improvements to 3.4 miles of SR 16 in Tacoma, the construction of a separated bike/pedestrian path on the new bridge, and seismic improvements to existing bridgework. The new bridge is designed to accommodate a second deck in the future. Existing rush hour traffic is substantially greater than the roadway capacity, and use is estimated to increase to 120,000 vehicles daily in 2020. The project is intended to improve the ability of people and freight to move safely within the corridor.

Bicycle & Pedestrian Coordination

This activity provides program and policy oversight for approximately \$3 million of sidewalks, bike lanes, trail, pedestrian, and transit-rider crossing improvements and other non-motorized community connections. This activity also provides pedestrian and bicycle project expertise on specific projects for WSDOT regions, and for local agencies upon request; coordinates training for local public works agencies and regional staff to gain subject expertise; and assists in the development of context sensitive solutions.

Maintenance of Terminals and Vessels

Maintenance includes labor, materials, repair contracts, and miscellaneous costs associated with terminal and vessel maintenance. Vessel maintenance is accomplished by Washington State Ferries (WSF) at its dedicated maintenance facility at Eagle Harbor. Larger vessel maintenance contracts and drydockings are performed at commercial shipyards around Puget Sound. Terminal maintenance includes routine asset maintenance and inspection performed by Eagle Harbor staff, and contracted maintenance for major maintenance needs.

Operations Transportation Equipment Fund

The department maintains the Operations Transportation Equipment Fund (OTEF) to provide for most of the department's equipment needs (RCW 47.08.120). This program includes the acquisition, inventory management, and logistical support for the department's vehicles, support equipment, and wireless communications system. The OTEF mission is to provide OTEF customers with reliable, well maintained vehicles, equipment, and radio communications that meet the needs of the users so that they may accomplish their services to the public in a safe, efficient, timely, and cost effective manner.

.....

Traffic Operations Program Operations

This activity is directed at maximizing system efficiency and working toward ensuring the safe use and operation of the transportation system. Traffic Operations functions include: operating ramp meters, tunnels, traffic signals, and Transportation Management Centers that monitor cameras, dispatch incident response units, and provide traveler information on the Web, to the media, by radio, or by phone. The unit responds to constituent inquiries and provides operational safety and efficiency projects that are low cost, often interim "spot investments." Examples of low cost enhancement projects include: installing rumble strips, restriping lanes, traffic signal upgrades, signs and illumination at dark intersections, minor intersection realignment, installing warning devices for wrong-way movements, or changing speed limits.

Highway Construction Mobility Improvements

This activity funds projects that increase highway capacity, with the long-term goal of reducing congestion and increasing mobility. Examples include completing the High Occupancy Vehicle (HOV) lane system in the Puget Sound region, improving the level of service on rural highways, and mitigating congestion on urban highways in cooperation with local and regional jurisdictions. Intelligent Transportation System projects provide for improved commercial vehicle operations, traveler information, and safety and congestion relief by applying advanced technology.

Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Foward Level

Agency: 405 - Department of Transportation

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Category: Construct mobility systems that improve the flow of people and goods

Highway Construction Economic Initiatives Improvements

This activity funds projects that improve the efficiency of moving freight and goods. Activities include improving freight routes by adding lanes, strengthening highways where travel is restricted due to freeze-thaw closures, and improving bridges and overpasses that have height or weight restrictions. It also provides rest areas.

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Category: Construct mobility systems that improve the flow of people and goods

Highway Construction Environmental Retrofit Improvements

This activity provides funding to correct or reduce the impact of transportation facilities on the environment. Examples include fixing culverts under state highways to allow fish to pass; rebuilding structures that discharge storm water; and reducing public exposure to noise by constructing noise abatement walls along highways.

Statewide Result Area: Improve statewide mobility of people, goods, information and energy

Category: Maintain mobility systems

Capital Facilities - Plant Maintenance and Operation

Facilities Maintenance and Operations Program provides funding for the operations and maintenance of approximately 650 capital facilities buildings owned by the department, totaling approximately 2.4 million square feet. These facilities include the regional support service center complexes located in each of the six designated transportation regions in the state and 133 maintenance facilities located throughout the state. In addition to operating costs such as utilities, custodial and other required facilities services, the program performs renovation and maintenance activities that are focused on preserving existing facilities in good working condition without extending the useful life of the asset.

Program Delivery Management & Support

This includes the functions and activities associated with management and support of program delivery at headquarters and in the six regions. It provides highway construction program management and support to headquarters and the regions, and regions' executive management and administrative services. It operates the department's Environmental Services Office and the activities of the Transportation Permit Efficiency and Accountability Committee (TPEAC).

Transportation Planning, Data, and Research

Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Foward Level

Agency: 405 - Department of Transportation

This includes development of a strategic statewide transportation plan. Activities include collecting and analyzing transportation data on roadway conditions, traffic and travel, accidents, mapping, and other geographic information systems. The program supports the Gray Notebook performance reporting process and other work of the department related to performance measures and benchmarks. This program also carries out research focused on developing and adapting new and innovative practices to improve the operation of the department and delivery of department programs.
